# Shoulder Clod Heart

Leaner and more tender than brisket: Shoulder clod hearts are a thick cut of meat with an intense, beefy flavor that brings out the best in any dining experience.

## About Shoulder Clod Heart

Shoulder clod heart is a flavorful and tender cut that, along with beef brisket, is the foundation of Central Texas-style BBQ. It's a versatile cut that can be cooked low and slow, roasted or slow-braised. With a very affordable price point, it has the potential to yield a significant profit margin while offering an excellent alternative to more expensive cuts.

### Attributes

- Rich and juicy
- Robust beefy flavor
- Preparation and presentation versatility

## A Cut That Goes Beyond BBQ

Shoulder clod heart can be prepared for all levels of dining, from BBQ to food trucks to white tablecloth. It can be sliced thin and grilled, slow-cooked and shredded, diced and marinated — whatever your menu calls for, this is a cut that delivers.
